CAREER OBJECTIVE

Full Stack Developer with experience in Java, Spring Boot, Angular, React.js, JavaScript, and REST APIs. Hands-on experience building web applications through internships and project work, including backend services with Spring Boot and MySQL, frontend interfaces with React.js, and database integration with Supabase. Comfortable working across frontend, backend, and database layers, with additional experience using Generative AI-assisted tools for development and debugging.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C
Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Angular, Responsive Web Design
Backend Development: Spring Boot, Node.js, Express.js, REST APIs
Databases: MySQL, Supabase
Tools & Platforms: Git, GitHub, VS Code, Kiro, Cursor, Claude
Additional Technologies: Generative AI & Prompt Engineering

EXPERIENCE

Software Development Intern — Edutainer Feb 2026 – May 2026

- Built and implemented reusable frontend components using React.js and JavaScript to develop responsive web interfaces.
- Translated UI designs into functional, responsive layouts using React.js, HTML5, and CSS3.
- Debugged and tested frontend code to identify and resolve UI and functionality issues.
- Collaborated with the development team to integrate frontend components into the broader application.

Full Stack Java Developer Intern — Tap Academy Feb 2026 – Aug 2026

- Developing full-stack web applications using Java, Spring Boot, REST APIs, MySQL, and React.
- Building backend services and database-driven application features using Spring Boot and MySQL.
- Developing and integrating REST API endpoints with React-based frontend components.
- Testing and debugging backend functionality to ensure reliable integration across application components.
- Using Generative AI-assisted development tools to support coding and debugging workflows.

PROJECTS

Hirefy – Recruitment Platform

Tech Stack: JavaScript, React.js, HTML, CSS, Bootstrap, Node.js, Express.js, Supabase

- Developed a full-stack recruitment platform using React.js, Node.js, Express.js, and Supabase with role-based functionality for candidates, recruiters, and administrators.
- Implemented authentication and role-based access control to manage permissions across candidate, recruiter, and administrator roles.
- Built backend functionality using Node.js and Express.js to support job posting, resume creation, and application tracking features.
- Integrated Supabase for database storage and user management across the platform.

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026
Jain College of Engineering, Belagavi — CGPA: 8.94

Bachelor of Science 2020 – 2023
KLE GI Bagewadi College, Nippani — CGPA: 7.79

ACHIEVEMENTS

- Participated in SudurCodeX TechFusion 2026 Hackathon, demonstrating teamwork, problem-solving, and collaborative development under time constraints.

CERTIFICATIONS

- IBM SkillsBuild – Artificial Intelligence Fundamentals
- IBM SkillsBuild – Customer Engagement: Communication and Personality Dynamics
